Notes From Dr Tzioros

We have had a lot of questions about our new name-Divine Dental. We want to assure all of our patients that we are the same faces and same great treatment with just a new name! I have not sold the practice nor do I have any plans for that. I love seeing all of your smiling faces at your appointments and serving you to the best of my ability! The two main reasons for the name change are the following-it is very difficult to pronounce my last name and I want to stay relevant in the growing online environment-marketing branding purposes. I appreciate all of you and your loyalty to our practice and hope to continue serving you for years to come!

We are excited to offer an in house Membership Plan at our office. Here are the most common questions we have heard about it!

Who qualifies to enroll?

Anyone who does not have dental insurance is eligible to enroll in our plan. The only requirement is you have an email address so you can sign up for the plan online.

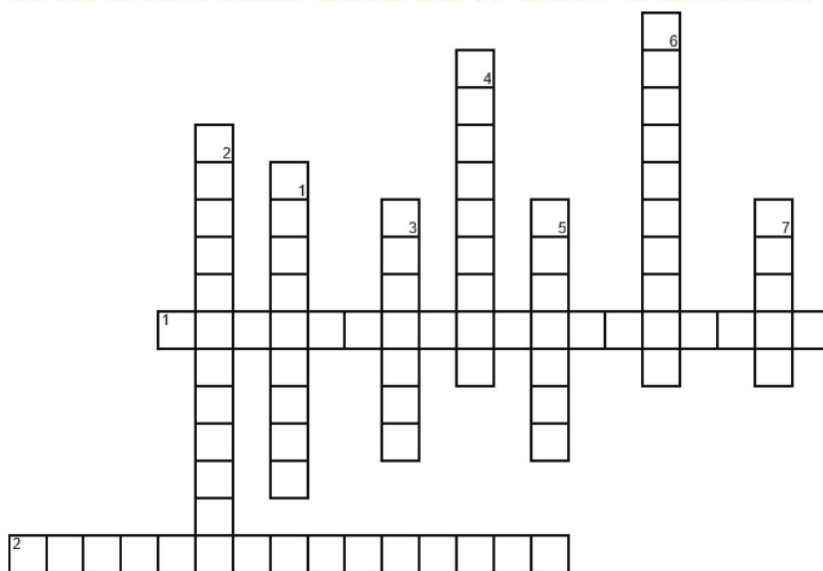

What is included in this plan?

For a monthly or annual subscription fee, all your preventive dental needs are included. Also, you will receive 20% off any dental treatment. You can visit our new website at www.divinedentaldr.com and click on in house membership plan to see the three options. You will find the cost and the details for what preventive treatments are offered in each plan.

Why are we offering this in house membership plan to our patients?

We love having the opportunity to help our patients who do not have dental insurance. The annual and monthly fees are less than if you walked in and paid for all that is included in the three options. Also, you receive discounts on your dental treatment. In addition, there is no interference of the dental-patient relationship.

DIVINE DENTAL CROSSWORD PUZZLE

In the Spotlight

My name is Holly, I've been a dental assistant in this practice for 25 years. Seven years ago, Dr. Tzioros bought the practice from Dr. Lentz, and I stayed with her. My passion is helping people understand the importance of taking care of their teeth and having a great smile. I love my job, and I love being able to make people smile and have comfort when getting treatment. That is why I love being a dental assistant. I also love spending time with my two dogs Jax and Gracie, going on the boat with my husband John and when possible having family over and cooking great meals!

Across

- bone loss
- assist doctor

Down

- best dentist
- new name
- xray around head
- white filling
- replace missing teeth
